

Natalia Lungu

Front end developer

I'm an enthusiastic front end developer with around 3 years professional experience looking to expand my knowledge. I am hard working and passionate about front end technologies. I'm looking to join a team that I grow with and collaborate with to produce outstanding code and perform miracles for the company.

WORK EXPERIENCE

Various temping roles June 2022 – Present

Due to the cost of living crisis I found it hard to get back into IT, so I did temping work instead. I also continued my study with some personal projects and advanced react courses. Some projects are highlighted below with more in my personal portfolio:

Ecommerce project

- I created a fully responsive e-commerce website with API integration and the redux toolkit.
- view site here: <https://rt-ecommerce.netlify.app/>
- **Tech stack:** React, Redux Toolkit, CSS, HTML

Recipes project

- I created a recipes website that integrates with Edaman API and builds with Vite for faster load times. Also used the Tailwind CSS framework.
- view site here: <https://rt-recipe.netlify.app/>
- **Tech stack:** React, Redux Toolkit, Tailwind CSS, HTML, Vite

Favourite films project

- I created a dynamic and interactive film showcase for users to save their favourite films. This integrates with the OMDb API.
- view site here: <https://reactt-films.netlify.app/>
- **Tech stack:** React, CSS, HTML

Sabbatical Dec 2021 – May 2022

Due to a family emergency I had to return to my home country for 6 months.

Junior front end developer Jun 2019 – Nov 2021

Satori IT, London (Remote)

CONTACT DETAILS

- Chatham, UK (Remote)

- Slack

EDUCATION

State University of Moldova
BSc Finance and Banking

- Developed and launched various projects during my time at Satori for numerous small businesses and an agency partner.
- Most of our projects leveraged a headless CMS (WordPress) approach to define the backend and a completely bespoke front-end.
- Numerous projects were Ecommerce platforms with our own bespoke framework or WooCommerce (WordPress)
- I was responsible for developing the front-end based on designs created in Zeplin
- Gatsby (React based framework) was our main front-end technology
- GraphQL was also used to integrate with wordpress.
- Some projects are highlighted below:
 - **Financial service skills:** <https://financialservicesskills.org/>
 - **Certino:** <https://www.certino.com/>
 - **Central Bikes:** <https://www.centralbikes.co.uk/>
 - **Flying Pig:** <https://www.flyingpigcatering.com/>
 - **BatchWorks:** <https://www.batch.works/>
- **Tech stack:** WordPress, Ecomm, React, Redux, CSS, Gatsby, GraphQL

Junior developer contractor Apr 2019 – Jun 2019

Barbour Logic, London (Remote)

- I was hired to help refresh the website of Barbour Logic.
- This project required re-styling the front end of a WordPress theme as per the new design.
- view site here: <https://www.barbourlogic.co.uk/>

Tech stack: WordPress, CSS, PHP

Various Temping Roles Nov 2015 – Apr 2019

London

Since arriving in the UK I have worked for various temping agencies in the hospitality industry. **I also used my spare time to study IT and front-end development.**

Head Cashier Sep 2008 – Nov 2015

VictoriaBank , Moldova

As the head cashier, I performed various banking duties including: Exchanging money for customers, bank deposits, payment card applications, etc. Key to this role was a great attention to detail and exceptional customer service.
